PART I.

Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

No. 207. NOTIFICATIONS.

The 22nd February 1886.

In supersession of previous rules, the following rules are sanctioned by His Highness the Maharaja for the grant of mining leases in Mysore. They do not apply to the Kolar Concessionaires, or to mining leases already executed by the Government.

Leases of land for mining purposes will be given subject to the following rules and conditions :—

I. Each lease will be limited to a block not exceeding one square mile in area, and will be given for a term of 30 years according to priority of application. Applications for more than one block from the same applicant will be taken into consideration if there are no other applicants and if no other objection exists.

II. (1). Every application for a lease must be presented to the Secretary to the Dewan in the Revenue Department and be accompanied by a deposit of a sum of Rs. 1,000 for every square mile or fraction of a square mile applied for, as security for the due fulfilment of the engagement made by the applicant.

(2). Every application must also be accompanied by an extract from the Topographical, Revenue Survey, or other official map, and the land applied for should be marked upon such extract together with the names of all villages by which it may be surrounded.

(3). The applicant must point out to the Survey and Local Revenue officers the boundaries of the block of land applied for by him within a fortnight of the Government order for a survey being communicated to him.

(4). After the completion of the survey and needful enquiries by the Survey and Revenue officers, full particulars as to extent and assessment together with printed blank forms of leases to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who should, within a month from date of receiving such communication, tender for the Dewan's signature the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

(5). Failure to comply with paras 3 and 4 of this rule will involve cancellation of the application and forfeiture of the sum deposited with it.

(6). The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

(7). The lease should, after execution, be registered under the law for the time being for the registration of assurances, and the duplicate copy thereof should be deposited with the Mysore Government.

III. The lessee is to make his own arrangements with the holders of Government occupied assessed and inam lands in regard to entering upon or obtaining possession of them.

IV. The lessee is to pay to Government the annual assessment, as now existing or as hereafter revised by any survey, on all the arable lands, occupied or waste, and the jodi or quit-rent on any inam lands, as well as an assessment of eight annas per acre on all the unarable lands which may be included within the limits of the lease, together with all local cesses and other taxes or rates of every description payable in respect of the premises or lands comprised in the block, or of buildings or works erected thereon.

V. The lessee is to pay a royalty of 5 per cent on the gross proceeds of all gold, metallic ores, coal and other substances of a merchantable nature, which shall have been dressed, crushed and made merchantable, and of 10 per cent on the saleable value of all precious stones found in the selected block, clear of all deductions whatsoever.

VI. The lessee is to search and mine for gold, &c., throughout the term of the lease in the best and most effectual manner without intermission except when prevented by inevitable accident. But after the expiry of the first two years of the lease, the Government reserves to itself the option of levying in lieu of the royalty an assessment of Rs. 5 per acre in the event of its not being satisfied with the working or its results for any years of the lease.

VII. The lessee is required to keep regular accounts and plans and maps of the mines and workings, which are to be open to inspection by Government officers.

VIII. Government officers are authorized to inspect and examine the mines.

IX. The lessee is to keep all boundary marks in good order, and to fence every shaft, pit or open working.

X. The lessee is not wilfully to close, fill up or choke any mine or shaft without permission, and not to obstruct any existing roads, paths or by-ways on the land.

XI. The Government are authorized to recover any arrears of rent by distraint and sale of property belonging to the lessee, and in the event of the breach of any of the covenants on the part of the lessee, or of his causing any annoyance or obstruction to any class of persons or Government officials, the Government can cancel the lease on due notice and in default of satisfactory explanation within six months.

XII. In the event of the lessee not desiring a renewal of the lease on such terms as the Government may fix, he will be bound to deliver the land to Government at the expiration of his lease, with the shafts and other premises in good repair and working order, together with the books, maps and plans, free of any claim on account of buildings or other property left standing on the lands. And he should permit the purchase by Government of the buildings, plant, machinery and fittings at a fair valuation.

XIII. Any arrangement for commuting the royalty by a present payment of a lump sum as is sanctioned to the Kolar Concessionaires will be specially considered in each case; but the Government does not undertake to allow such commutation necessarily in every case; nor to grant every application for a lease as a matter of course.

XIV. (1). Every assignment of the right, title and interest granted by the lease, whether such assignment be made by the lessees or their successors by assignment, however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows,

namely :—for the first assignment, a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it.

(2). For the purpose of computing the fine aforesaid, any shares in a Company which may form the whole or part of the consideration may, at the option of the Government, be regarded as equivalent to the nominal value of such shares.

(3). The Government always to have the power of determining the present value of the consideration for a previous assignment, when the amount thereof has to be deducted from the amount of the consideration of a subsequent assignment for the purpose of computing the fine leviable on the latter.

Illustration.

If the lessees assign the lease to A for a consideration of Rs. 100, the fine payable is Rs. 10; if A afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$, or Rs. 90; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the nominal value of each share being £ 1, the fine payable is Rs. $\frac{1,00,000-1,000}{10}$, or Rs. 9,900 in cash together with either 50 shares in C and Company or £ 50 in cash at the option of the Government; if C and Company afterwards assign the lease to D and Company either for an annual rent of £ 10,000 or for a royalty of 10 per cent of the proceeds of the mine, the fine payable is either £ 1,000 per annum or a royalty of 1 per cent of the proceeds of the mine, as the case may be; if the under-lease from C and Company is afterwards assigned by D and Company to E for £ 10,000 in cash and £ 10,000 payable at the end of two years, the fine on account of such assignment is £ 1,000 in cash and £ 1,000 payable at the end of two years less such present value as the Government may fix for the annual rent of £ 1,000 or for the royalty of 1 per cent of the proceeds of the mine leviable on account of the under-lease to D and Company.

Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

The 2nd March 1886.

No. 211.—His Highness the Maharaja has been pleased to direct that the designation of the office of "Secretary to the Dewan in the Revenue and General Departments" shall be changed into "Chief Secretary to the Dewan".

The 22nd February 1886.

No. 207.—In supersession of previous rules, the following rules are sanctioned by His Highness the Maharaja for the grant of mining leases in Mysore. They do not apply to the Kolar Concessionaires, or to mining leases already executed by the Government.

Leases of land for mining purposes will be given subject to the following rules and conditions :—

I. Each lease will be limited to a block not exceeding one square mile in area, and will be given for a term of 30 years according to priority of application. Applications for more than one block from the same applicant will be taken into consideration if there are no other applicants and if no other objection exists.

II. (1). Every application for a lease must be presented to the Secretary to the Dewan in the Revenue Department and be accompanied by a deposit of a sum of Rs. 1,000 for every square mile or fraction of a square mile applied for, as security for the due fulfilment of the engagement made by the applicant.

(2). Every application must also be accompanied by an extract from the Topographical, Revenue Survey, or other official map, and the land applied for should be marked upon such extract together with the names of all villages by which it may be surrounded.

(3). The applicant must point out to the Survey and Local Revenue officers the boundaries of the block of land applied for by him within a fortnight of the Government order for a survey being communicated to him.

(4). After the completion of the survey and needful enquiries by the Survey and Revenue officers, full particulars as to extent and assessment together with printed blank forms of leases to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who should, within a month from date of receiving such communication, tender for the Dewan's signature the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

(5). Failure to comply with paras 3 and 4 of this rule will involve cancellation of the application and forfeiture of the sum deposited with it.

(6). The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

(7). The lease should, after execution, be registered under the law for the time being for the registration of assurances, and the duplicate copy thereof should be deposited with the Mysore Government.

III. The lessee is to make his own arrangements with the holders of Government occupied assessed and inam lands in regard to entering upon or obtaining possession of them.

IV. The lessee is to pay to Government the annual assessment, as now existing or as hereafter revised by any survey, on all the arable lands, occupied or waste, and the jodi or quit-rent on any inam lands, as well as an assessment of eight annas per acre on all the unarable lands which may be included within the limits of the lease, together with all local cesses and other taxes or rates of every description payable in respect of the premises or lands comprised in the block, or of buildings or works erected thereon.

V. The lessee is to pay a royalty of 5 per cent on the gross proceeds of all gold, metallic ores, coal and other substances of a merchantable nature, which shall have been dressed, crushed and made merchantable, and of 10 per cent on the saleable value of all precious stones found in the selected block, clear of all deductions whatsoever.

VI. The lessee is to search and mine for gold, &c., throughout the term of the lease in the best and most effectual manner without intermission except when prevented by inevitable accident. But after the expiry of the first two years of the lease, the Government reserves to itself the option of levying in lieu of the royalty an assessment of Rs. 5 per acre in the event of its not being satisfied with the working or its results for any years of the lease.

VII. The lessee is required to keep regular accounts and plans and maps of the mines and workings, which are to be open to inspection by Government officers.

VIII. Government officers are authorized to inspect and examine the mines.

IX. The lessee is to keep all boundary marks in good order, and to fence every shaft, pit or open working.

X. The lessee is not wilfully to close, fill up or choke any mine or shaft without permission, and not to obstruct any existing roads, paths or by-ways on the land.

XI. The Government are authorized to recover any arrears of rent by distraint and sale of property belonging to the lessee, and in the event of the breach of any of the covenants on the part of the lessee, or of his causing any annoyance or obstruction to any class of persons or Government officials, the Government can cancel the lease on due notice and in default of satisfactory explanation within six months.

XII. In the event of the lessee not desiring a renewal of the lease on such terms as the Government may fix, he will be bound to deliver the land to Government at the expiration of his lease, with the shafts and other premises in good repair and working order, together with the books, maps and plans, free of any claim on account of buildings or other property left standing on the lands. And he should permit the purchase by Government of the buildings, plant, machinery and fittings at a fair valuation.

XIII. Any arrangement for commuting the royalty by a present payment of a lump sum as is sanctioned to the Kolar Concessionaires will be specially considered in each case; but the Government does not undertake to allow such commutation necessarily in every case; nor to grant every application for a lease as a matter of course.

XIV. (1). Every assignment of the right, title and interest granted by the lease, whether such assignment be made by the lessees or their successors by assignment, however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows,

namely :—for the first assignment, a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it.

(2). For the purpose of computing the fine aforesaid, any shares in a Company which may form the whole or part of the consideration may, at the option of the Government, be regarded as equivalent to the nominal value of such shares.

(3). The Government always to have the power of determining the present value of the consideration for a previous assignment, when the amount thereof has to be deducted from the amount of the consideration of a subsequent assignment for the purpose of computing the fine leviable on the latter.

Illustration.

If the lessees assign the lease to A for a consideration of Rs. 100, the fine payable is Rs. 10 ; if A afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$, or Rs. 90 ; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the nominal value of each share being £ 1, the fine payable is Rs. $\frac{1,00,000-1,000}{10}$, or Rs. 9,900 in cash together with either 50 shares in C and Company or £ 50 in cash at the option of the Government; if C and Company afterwards assign the lease to D and Company either for an annual rent of £ 10,000 or for a royalty of 10 per cent of the proceeds of the mine, the fine payable is either £ 1,000 per annum or a royalty of 1 per cent of the proceeds of the mine, as the case may be ; if the under-lease from C and Company is afterwards assigned by D and Company to E for £ 10,000 in cash and £ 10,000 payable at the end of two years, the fine on account of such assignment is £ 1,000 in cash and £ 1,000 payable at the end of two years less such present value as the Government may fix for the annual rent of £ 1,000 or for the royalty of 1 per cent of the proceeds of the mine leviable on account of the under-lease to D and Company.

XV. A form of lease to be granted under these rules is hereunto appended.

By Order,
K. SHESHADRI IYER,

No. 90.—The orders for the partial remission of assessment on wet lands contained in paras 6 *et seq* of Dewan's Proceedings No. 4461—123, dated 29th August 1881 and in Dewan's Proceedings No. 7162-9—219, dated 7th December 1881 are cancelled, and in lieu thereof, the following rules are sanctioned for adoption from the current year 1886—87. These rules will also apply to all wet lands cultivable with vaisakha crops in the current season, whether the land revenue on account of the same is creditable to the accounts of 1885—86 or 1886—87.

I. Dewan's Notification No. 151 of the 30th August 1881 is hereby cancelled with effect from 1st April 1886.

II. When by breaching or any other accident, a tank or other work of irrigation becomes not available for irrigation, no remission of the wet assessment on lands situated under such tank or other work shall, as a rule, be granted for the official year during which the breach or accident

occurs. Special cases, in which the Deputy Commissioner may think some remission of assessment necessary during such year, should be submitted for the orders of the Dewan.

III. But, for the second and succeeding years during which the tank or other work may remain unrestored and unavailable for irrigation, a temporary reduced assessment of half the full wet assessment shall alone be levied as 'Bengar' kandayam, the remaining half being shown in the accounts as a remission, without reference to any dry crops which may be raised.

IV. Lands which, by their situation, are capable of being cultivated with wet crops, notwithstanding the breach or other accident, shall not be entitled to the reduction of assessment referred to in the preceding rule.

V. In the year following the one in which the breach or other accident occurs, the Deputy Commissioner or one of his Assistants shall, after personal inspection during the cultivation season, decide once for all what lands are entitled to the reduced temporary assessment under Rule III.

VI. This temporary reduced assessment shall be adopted at each jamabandi settlement, till the irrigation work is again made efficient by the Government, a statement in the accompanying form being submitted to the Chief Secretary to the Dewan as soon after the close of the jamabandi as possible.

VII. In cases not covered by the foregoing rules, no remission shall be granted without the previous sanction of Government.

VIII. The existing rates of wet assessment have been fixed after a full consideration of the value of the source of irrigation and upon the basis of an average of good and bad seasons. These rates are not liable to be reduced on the ground that the land has been allowed to lie waste.

IX. In exceptional years, it will rest with the Government to direct the grant of special remissions of land revenue for particular tracts suffering from a scanty rain-fall.

CODES.

Calcutta, the 31*st December* 1885.

No. 819.

CIVIL PENSION CODE.

Section 188.

Rule 1.

Page 103.

Substitute the following for the last sentence of this rule :—

The following Rules apply to the cases of officers of the late Indian Navy, re-employed under Government, who have commuted the whole, or a portion, of their Indian Navy pensions :—

(1) If the re-employment of the officer commenced after the 31st of July 1883, his salary will be subject to a deduction equal to the amount of pension commuted, provided that his total emoluments shall not thereby be reduced to a less amount than the original pension, together with a quarter thereof. The officer will not be entitled by reason of such deductions to resume, on the termination of his re-employment, any portion of the amount of pension commuted.

(2) If the re-employment of the officer commenced on, or before, the 31st of July 1883, his salary will be subject to deductions as above ; but—

(3) If deductions under Rule 2 have been regularly made during the whole period of his re-employment, he will be allowed to discontinue payment of the deductions when the aggregate amount deducted equals the capital value (calculated at the date of the commencement of his re-employment) of the amount of pension commuted.

(4) An officer under Rule 2 will be allowed on the termination of his re-employment to resume the amount of pension commuted, provided that the full capital value, as described in Rule 3, has been repaid by the deductions from his salary. If such capital value has not been repaid in full when the re-employment ceases, the amount of pension commuted may be resumed on the officer paying up the balance, and with effect from the date on which he pays such balance.

(5) An Indian Navy pensioner re-employed on or before the 31st of July 1883, from whose salary the deductions prescribed in Rule 1 have not been regularly made during the whole period of his re-employment, is not entitled to the concessions specified in the subsequent rules, and is subject to deductions under Rule 1 from the date on which it is known that such deductions are not being made, or such earlier date as may be determined by the Government of India.

13. Such report, when made by the Judge of any Court subordinate to the District Court, or by any Magistrate subordinate to the District Magistrate, shall be submitted through the District Judge or through the District Magistrate, as the case may be, who shall append to the report any remarks that he may think necessary and an expression of his own opinion of the case.

15. The Resident's Court, in any case in which an Advocate or Pleader has been acquitted otherwise than by an order of its own, may call for the record and pass such order thereon as it may deem fit.

16. The Resident's Court may also direct that any charge preferred against an Advocate or Pleader in any Court subordinate to it, shall be transferred for adjudication to itself or to any other Court of equal or superior grade to that in which the charge is preferred.

17. The suspension of any Advocate or Pleader shall be noted in the roll of Advocates or Pleaders in the Resident's Court, and notice thereof shall be sent to all Courts subordinate to that Court.

Mr. Standish Lee, Sanitary Engineer, was also present.

1. *Monthly Accounts.*

The accounts for the month of December 1885 have been examined and passed.

2. *Estimate and plan for widening Sivarampete Bridge.*

Resolved that the work of widening the Sivarampete Bridge be carried out at a cost of Rs. 1,000, Mr. Standish Lee having consented to give the Board a revised plan and estimate of the same.

3. *Estimate and plan for lowering the Yirangere Road in order to save hardship to cart traffic to some extent.*

Resolved that, for the present, a sum of about Rs. 700 be sanctioned to lower the Yirangere high road, between the Roman Catholic Chapel and Jail junction road, with a view of giving a gradient of 1 in 50 about that very high portion of the road.

4. *Read Docket No.* 572, *dated* 14*th January* 1886, from the Vice-President, Bangalore Town Municipality, stating that there are no Convents within the Municipal limits of the City of Bangalore and forwarding copy of Section 189 of the Municipal Regulations on the subject.

Mr. Standish Lee explained that a vault which exists in the Convent in the Civil and Military Station of Bangalore must have been opened before the Municipal Regulations came into force there, that, when the dead body of a nun was proposed to be buried in it lately, objections were raised for the same, and that, at Madras, there is a rule that a vault once opened could not be re-opened for 5 years and then too, with the previous permission of the Municipal authorities.

Resolved that, the vault being in effect a burial ground for a portion of the community and not intended for the interment of isolated cases on religious or other special grounds, the application for the opening of the vault *newly* within the precincts of the Convent in this Town is objectionable and cannot be entertained.

5. *Resolved* that the Banks carrying on trade within the limits of this Town be taxed according to the principle of taxation in respect to other trade, and not at an uniform rate of 15 rupees per annum, as is being done in the Bangalore City.

6. *Resolved* that a Committee consisting of Messrs. Virasangappa, Puttanna, Raghavachari, Bommaiya and Ananda Rao be appointed to investigate the circumstances and extent of the oil-mongers' trade in this Town and to submit their report whether any and what reduction could be made in the rate at which the oil-mongers are, at present, taxed for their respective mills.

To—The Deputy Commissioners of Districts, Circular No. 1649, *dated* 15*th March* 1886.

The Comptroller having reason to apprehend that the rule laid down in the Survey Manual for collecting the whole of the local cess on land revenue with the 1st khist of the year is not strictly followed in all the Districts, has the honor to draw the attention of the Deputy Commissioners to the subject, and to request that instructions may be specially sent to all the Amildars and through them to village officers to observe the above rule from the commencement of the khists in the coming year.

1. *Monthly Accounts.*

The accounts for the month of January 1886 have been examined and passed.

2. *Widening Sivarampet bridge.*

The revised estimate, received from Mr. Standish Lee, amounts to about Rs. 1,200 and provides for stones to be taken from the ramparts about the place; these stones do not appear to be suitable as to ensure the safety of the bridge; the estimate also provides only for a foundation of 6 feet, whereas hard soil could not be got at even if dug deeper. Therefore it is resolved that the foundation work with large stones and chunam be put in hand at once in anticipation of a correct estimate being prepared and submitted for the final decision of the Board.

3. *Removal of all bamboo bazaars from the centre of the important bazaar streets to some other convenient place.*

Resolved that, to prevent accidents by fire, the vending places generally called "Bamboo Bazaars" where bamboos, mats, coir ropes, baskets, &c. are exposed for sale, be removed from important streets to some isolated locality, within convenient distance from the centre of the town, and that the executive do select one or more sites to locate the said bazaars, submitting at the same time an estimate showing the cost that may be incurred for the purpose.

4. *Deposit of night soil on the high ground to the north of the road to Cole's garden, instead of carting the same to Cole's garden itself.*

Dr. Benson, having personally inspected the locality and raised no objection to the arrangement, resolved that a piece of land be purchased there for depositing night soil instead of carting it to Cole's garden as at present, and that the executive do arrange for the periodical sale of the rubbish collected there for the benefit of the Municipality.

5. *Compensation list for the removal of houses to open a road to the convent amounting to* Rs. 1,066.

Mr. Puttanna, one of the Commissioners who prepared the compensation list, having explained that some of the owners did not consent to the value fixed by the Sub-Committee, and that the amount of compensation for the removal of the houses and the straightening of the road as far as the gate of the convent may probably come to about Rs. 1,500; it is resolved that the Lady Superior be asked to be good enough to contribute one-half of the amount of the actual cost, inasmuch as the work is to be done more for the benefit and decent appearance of the convent than for public convenience.

6. *Resolved* that the right to hold stalls and to collect fees in the markets and in the slaughter-house be sold in the presence of 2 of the Commissioners on a date to be fixed by a notification, which is to be published three times, at least a week previous to the date of sale.

Resolved further that the lighting contractors for the last 2 years not having given satisfaction in the discharge of their work, the lighting for the next year be carried out departmentally under the supervision of the Commissioners of the respective Mohallas with the help of the Municipal establishment.

7. *Resolved* that the public latrine, behind the Jivan Rao tank, be removed to some other suitable locality, if necessary, as the present locality is suited for good building sites and not at all for latrine.

8. The mutton butchers' stalls in the Sivarampet market having fallen down suddenly, it is resolved that the executive do take immediate steps to rebuild them.

9. Dr. McGann's letter No. 164, dated 12th instant with enclosure, regarding the building of cinorators in convenient places within the hearts of the Town for disposal of rubbish.

Dr. Benson, saying that he had received a further communication from Dr. McGann on the subject, the consideration of the same be deferred till next meeting.

Two sets of lists of payments and treasury cash accounts will be prepared, one on account of these taluks and another for the Districts proper as constituted in the new organization, for submission to the Comptroller's Office, where the accounts for the Hassan and Chitaldroog Districts will be compiled. After 1st May when the District Treasuries of Hassan and Chitaldroog have been opened, copies of the first set of accounts together with the C accounts, ledgers, &c., received from the transferred taluks, should be forwarded to those treasuries.

Kankuppa and Molakalmuru under the Tumkur District Treasury, and Arkalgud under the Mysore District Treasury.

2. Other District Treasuries having business to transact with the District Treasuries of Hassan and Chitaldroog, such as the issue of Public Service Transfer Receipts, local Money Orders and transfers of Savings bank accounts, will enter the transactions in their accounts against the District Treasuries of Hassan and Chitaldroog, but send the Transfer Receipts, &c., for encashment to the District Treasuries of Mysore, Kadur, Shimoga or Tumkur according to the transferred taluk to which the transactions may relate.

2. Contributions recoverable from ryots.
3. Survey Boundary mark charges recoverable from ryots.

4. In order that treasury work may be carried on satisfactorily and the register and accounts may be kept correctly, the Comptroller requests the Deputy Commissioners in the Treasury Department of the Districts concerned to give their personal attention to the subject and to direct the Treasury Officers under them to give such detailed orders to their office establishment and to the Taluk Treasuries as may be required to ensure the careful observance of these instructions.

The 12th March 1886.

Proceedings of the Tumkur Town Municipal Board held on the 12th day of March 1886 at 3 P. M., in the Deputy Commissioner's Office, Tumkur.

Present.

Mr. B. G. Krishnaiengar, *Vice-President.*

Members.

The Revd. G. W. Sawday.
Mr. L. Srinivasaiengar.
Mr. Ramadasappa.
„ Venkatachar.
„ Appanna Setti.
„ Sugappa.

1. Read accounts for the months of December, January and February last and passed with the exception of the following items :—

Reward for snake killing	Rs.	28	0	0	for December.
Do do	„	11	14	0	for January.
Picota for the Municipal garden ..	„	3	0	0	
Contingencies	„	4	0	0	
Total....		46	14	0	

It is observed that these expenditures are said to have been incurred out of Rs. 50 paid to the Municipal Overseer as advance in December and January. Mr. Assistant Commissioner Krishna Rao's explanatory memo on this subject and the Deputy Commissioner's notes thereon have been read by the members present, and it is resolved that as the above items have not been properly vouched, they should be disallowed and the Overseer required to refund the amount. The system of making advances to the Overseer is objectionable and it is ascertained from the present Vice-President that it has been discontinued since his taking charge of the office.

2. The mortuary returns for the above months have also been read and the following table gives the details of births and deaths in the Town during the period :—

		Births.		Deaths.	
		Male.	Female.	Male.	Female.
December 1885	..	4	7	2	2
January 1886	..	11	8	8	9
February „	..	5	2	4	3
Total....		20	17	14	14

As these figures don't call for any special remark, the returns are directed to be filed.

3. Read letter No. 5401—185, dated December last from the Secretary to the Dewan to the Deputy Commissioner and the latter's docket No. A, dated 11th March anent licenses to be issued to betel-leaf sellers in the Town.

Resolved that the same system as is in vogue in Bangalore Municipality be introduced into this Town also from 1st April next. From and after that date all betel-leaf sellers within the Municipal limits should obtain licenses from the Municipal Office on payment of one rupee per annum. No one should be allowed to vend betel-leaf without such license.

4. It having been brought to the notice of the members that the resolution passed on 10th November 1885 as regards the rent payable on shops in the flesh market works hardship on some, while it is disproportionately advantageous to others, since Rs. 2 per mensem are fixed for each of the first four occupied shops and 8 annas per mensem for the remaining 8 shops; it is resolved that from 1st April next, the shops should be rented out at a uniform rate of Rs. 1—8—0 per mensem. If for any particular shop two applications are received simultaneously, *i. e.*, on the same day, the right to vend in that shop will be immediately put up for auction and given to the highest bidder, Rs. 1—8—0 being taken to be the minimum rate of rent chargeable on such shop. Rents are recoverable in advance for each quarter. It is further resolved that persons wishing to resign their shops should send in their resignation so as to reach the Municipal Office within office time on the last day of the quarter, otherwise they should be made liable for the rent of the next quarter.

5. Read application from the Revd. G. W. Sawday for the construction of a privy somewhere near the Petta Mission Boy's School or for the grant to him of a piece of land in that locality for that purpose.

Resolved that the Vice-President should inspect the locality with Mr. Sawday and see what can be done in the matter.

6. The Municipal Shanbhog having represented to the Board that he obtained no remuneration for making collections and that he had to pay for papers, &c., from his own pocket, it has been resolved by the members that Rs. 5 should be paid to him annually for contingencies. TUMKUR MUNICIPALITY.

The 13th April 1886.

Proceedings of the Town Municipal Board, Tumkur, 13th April 1886.

Present.

Mr. B. G. Krishnaiengar, Vice-President.	Mr. Ramadasappa.
,, Arnold, Assistant Surgeon.	,, Appanna Chetti.
,, Venkatachar.	,, Sugappa.

The Monthly accounts and the Mortuary return for March 1886 have been read and passed.

The following resolutions have been passed :—

1. That the estimate of Rs. 25 for the repair of the sweeper's shed near Balanakatte appears to be somewhat high ; it may be caused to be revised and the repairs executed under the direction of the Vice-President.

2. That the complaint of the residents of Santépete with regard to the boiling of oil-seed (haralu) and throwing up of their refuse at and near Chinagaiya's bandy stand adjoining the Bangalore-Honnavar road, thereby causing a bad smell injurious to the health of the neighbouring house-holders and to the passers by, being considered to be well founded, the oilmongers should be prevented from continuing the nuisance. The use of the bandy stand for the above purpose is not allowable and as the persons concerned have asked for time, they may be allowed two months to find out some less objectionable place on the condition of the refuse of the oil-seed being removed from the place so as to prevent the bad smell spreading.

3. That the petition of the toddy contractor requesting that he may be permitted to remove his shop to a site said to have been purchased by him in Horapete, should be sent to the Commissioners of the Division with a view to their instituting necessary enquiry and reporting upon it before the meeting of the Board in May next.

4. That the levy of octroi duty except on cloths being considered an hinderance to the free exercise of trade (*vide* Dewan's Proceedings No. 1011—15, dated 17th September 1885), the Board is of opinion that the duties on the marginally noted articles may be abolished provided an equivalent income can be obtained from any other less vexatious source. The Board thinks that this is feasible by raising the shop and house taxes by two and one anna respectively on every rupee at present paid. It does not entail upon the people any great hardship since it is ascertained from the Shanbhog that one anna on every rupee is at present levied from such of the people as paid mohatarfa prior to the amalgamation of the municipal and mohatarfa taxes for the benefit of Talavars who are supposed to aid in the collection of the municipal taxes. So far as the Board is aware, this collection is unauthorized and it may be merged in the extra amount now proposed to be levied in lieu of the duties on the articles already mentioned. Besides the two merchant Municipal Commissioners, other merchants present at the meeting of the Board think that this increase of the house and shop taxes can be advantageously adopted. The collections for 1885-86 on the articles named were Rs. 302, and though the proposed increase on the *house and shop taxes does not fully cover the loss, yet considering the avoidance of annoyance to people it may be adopted.

Tobacco, betel-leaves, cocoanuts dry, cocoanuts fresh.

*House tax Rs. 1,663.
Shop tax Rs. 1,000.

Pending final orders on the above proposal, the question of granting licenses to betel leaf and tobacco sellers will be held in abeyance.

5. That the proposal of Mr. Arnold, Assistant Surgeon, to raise the pay of the marginally noted Dispensary servants seems deserving of consideration. The Board thinks that each of these may be given an increase of one rupee per month. Under existing arrangement, ⅔rds of the pay of these servants are paid from District funds the remaining ⅓rd being paid by the Municipality. Thus out of three rupees proposed to be paid as increase to the above mentioned servants, the Municipality will have to pay one rupee per month.

	Present Pay.	Proposed Pay.
Surgery or Dispensary Cooly ...	5 0 0	6 0 0
Female Toti ...	4 0 0	5 0 0
Ward Cooly ...	5 0 0	6 0 0

6. That in spite of certain big wells being excavated in the town to meet the present scarcity of water, the Board thinks it necessary to deepen some of the existing wells, whether public or private, situated in the town to meet the growing wants of the people. It is however proposed that grants should be made to private wells provided their owners consent to their wells being made use of by the people generally. Rs. 200 are proposed to be set apart for this purpose.

B. G. KRISHNAIENGAR,
Vice-President.

Extract from Letter No. 50, dated 23rd March 1886, from the Civil Surgeon, Mysore.

Para 2. I shall feel much obliged if you will also bring forward at the next meeting a proposition of mine, to establish a Dispensary in one of the most distant parts of the Town, say for instance, Iranagere or Old Agrahara ; many persons would thereby be saved the long journey to the Hospital each day. The Medical Department would depute an Hospital Assistant to attend there every morning and evening, and the Municipality would have to pay for the rent of the house, cost of medicines and establishment.

I am convinced that, if a Dispensary were opened, a good many persons would resort to it, who, if they had to go as far as the Civil Hospital, would not attend.

RESOLUTION.

In the circular letter No. 89A., dated the 25th July 1884, it was requested that all future estimates of the probable or actual outturn of crops should be prepared in an uniform manner, and Local Governments and Administrations were asked with this object to use either the American or the Indian system. It was added that in the event of the Indian system being preferred, 12 annas should be employed to denote an average crop and one rupee to denote a bumper crop. The object which the Government of India had in view was merely to secure uniformity in the preparation of these estimates. Subsequently the Government of the North-Western Provinces and Oudh represented that the system ordinarily used in those Provinces is that under which an average crop is denoted by one rupee, a bumper crop being described as one and one quarter or 20 annas crop. A doubt having thus been thrown on the general applicability of the orders of the Government of India, a further reference on the subject was made to Local Governments and Administrations. From the replies received, it now appears that the system under which one rupee is used to denote only an average crop is in use in the whole or part of most Provinces, and all Local Governments and Administrations except the Governments of Bombay and Bengal have expressed their willingness to adopt it in their estimates. In the Bombay Presidency and in the Lower Provinces one rupee is generally used to denote a bumper crop, and the Governments concerned are therefore desirous of retaining the standard commonly in use.

2. The Governor-General in Council would be glad to leave the decision of the question to Local Governments if it were not for the uncertainty and inconvenience which must result from the preparation of returns by different standards. It is hoped that the returns will eventually be of considerable value to the mercantile public; but this can only be the case if an uniform method is followed in their preparation. Looking to the general tenour of the opinions expressed, it appears that less inconvenience will result from the adoption in Bombay and Bengal of the system under which an average crop is denoted by one rupee than from the introduction into other parts of India of the system under which one rupee denotes a bumper crop. His Excellency in Council trusts therefore that with the permission of Local Governments and Administrations crop forecasts may in future be prepared in all Provinces on the former system.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Local Governments and Administrations noted in the margin.

RESOLUTION.

FOR several years past the attention of the Government of India has from time to time been directed to the desirability of alleviating, so far as is possible, the discomforts and sufferings experienced by Muhammadan pilgrims during the journey from India to the Hedjaz. The existence of these sufferings, more especially in the case of those of the poorer class of Muhammadans who undertake the pilgrimage, is an admitted fact; but the action taken with a view to afford relief has been necessarily of a restricted nature owing to the unwillingness felt by the Government to undertake any direct interference with what is considered to be a religious obligation by a large section of the Muhammadan community in India. In 1880 intimation was received from Her Majesty's Secretary of State that the Turkish Government had issued orders requiring passports from all passengers and pilgrims arriving in Jeddah, whether Turkish or foreign subjects, and announcing that those who came unprovided with such documents would be liable to be repelled from the ports of the Hedjaz. In order to render these Turkish Regulations as little irksome as possible to natives of India proceeding to the Hedjaz on pilgrimage, the Government of India, after consulting Local Governments and Administrations, resolved* to establish a system under which passports should be unconditionally given to every intending pilgrim, not only at the Indian ports of embarkation but also at the central stations of every district in British India and at the head-quarters of all Political Agencies in Native States. Arrangements were also made to grant informal passes to the subjects of other Governments, *e. g.*, natives of Kashgar, Russian Turkistan, Afghanistan, &c., who embark for Mecca from Indian ports, it being explained that these passes impose no responsibility on the Government of India in regard to the holders, and that the Governor General in Council could not in any way guarantee their recognition by the officials of the Turkish or any other Foreign Government. Further, in consideration of the very large number of pilgrims who annually embark at, and return to, Bombay, and to the necessity of making some special arrangements to meet their requirements, a Muhammadan Protector of Pilgrims was appointed at that port and instructed to supply intending pilgrims with all the information and assistance within his power in respect of every matter connected with the pilgrimage.

* Home Department Resolution No. 4—198-214, dated 12th July 1882.

2. Since the above measures were undertaken, further efforts have been made by the Government of India towards the proper regulation of the India pilgrim traffic by amending the provisions of the Native Passenger Ships Act (No. VIII of 1876) in certain important respects, and by revising the rules issued under that Act with reference to the fitting, provisioning, sanitary arrangements, &c., of pilgrim ships. These rules have been assimilated, as far as possible, with those in force for regulating the transport of emigrants to the French and British colonies, and have been widely circulated in the form of a "Manual for the guidance of officers and concerned in the Red Sea Pilgrim Traffic." It has been made obligatory on ships conveying more than 100 pilgrims to carry a qualified medical officer, and in order to promote the welfare of Indian pilgrims during their stay in the Hedjaz, an Indian Vice-Consul has been appointed at Jeddah, whose special duty it is to attend to the interests and well-being of pilgrims. In order further to afford protection and assistance to the pilgrims, especially in connection with their detention in quarantine under the orders of the Turkish Government, a Muhammadan Vice-Consul has been temporarily appointed for Hodeida and Camaran. A dispensary has also been established at Jeddah for affording relief to Indian pilgrims in the Hedjaz. Lastly, in order to regulate and bring under proper control the transactions of pilgrim-brokers in the City of Bombay, it is proposed to introduce a Bill into the local Legislative Council under which the business will in future be restricted to licensed persons; and certain penalties will be imposed for any breach of the terms of the license. The action hitherto taken cannot fail to have effected a substantial improvement in the position of pilgrims during the voyage to Jeddah and while staying in the Hedjaz.

In the course of the correspondence which has taken place with Her Majesty's Secretary of State on the subject, it was considered whether intending pilgrims should be required before proceeding on the voyage to deposit a sum of money sufficient to cover the cost of their return journey. The Government of India admitted that such a regulation would prevent much misery and suffering, but the opinion of the local authorities was opposed to interference of this nature on the ground that it might be misunderstood and misinterpreted, and the Governor General in Council accordingly decided that action of the kind was unadvisable. At the same time a public notice was issued in the English, Hindustani, and Persian languages warning persons who propose to undertake the pilgrimage of the difficulties to which they would be exposed owing to the imposition by the Turkish Government of quarantine for at least ten days at the Island of Camaran (during which period pilgrims are required to pay certain fees besides arranging for their own provisions), and impressing upon intending pilgrims the desirability of not starting unless provided with sufficient funds (at least Rs. 300) in order to meet the expenses of quarantine, of the journey from Jeddah to Mecca and back, and of the return journey to India.

3. In October 1884 a communication was received from Messrs. Thomas Cook and Son, expressing the readiness of that Firm to undertake the conveyance of pilgrims between India and Mecca. The extensive experience gained by Messrs. Cook and Son in connection with the requirements of schemes of a similar character, and the considerable degree of success which has attended their operations clearly pointed to that Firm as peculiarly qualified to assist the Government in still further regulating the conveyance of pilgrims between India and Arabia, and in placing the arrangements on a footing more satisfactory to the Government and more convenient to the pilgrims themselves than has hitherto been found possible. Messrs. Cook and Son were accordingly informed that if they were able to make the necessary arrangements, the Governor General in Council would be prepared to give them such assistance as might be within his power. Messrs. Cook and Son have now informed the Government of India of the conditions upon which they are prepared to undertake the agency and control of the conveyance of pilgrims to and from Jeddah, and the Governor General in Council, after careful consideration and personal communication with Mr. J. M. Cook, is of opinion that those conditions are such as may be accepted. The conditions contemplate the appointment of Messrs. Thomas Cook and Son to be pilgrim agents for the whole of India, local officers and officers in charge of treasuries being instructed to assist that Firm in making known the terms of through conveyance to Jeddah and back, and in disposing of through tickets. The Bombay Government will be requested to make over to the representatives of the Firm the issue of passports in Bombay after these have been signed by the proper authorities, and to instruct the Protector of Pilgrims to work in harmony with the Firm and to render it every possible assistance. On the other hand, Messrs. Thomas Cook and Son agree to arrange with the railway administrations, steam ship proprietors, and others concerned, for the conveyance of the pilgrims, at through fares, from all the chief stations in India to Jeddah and back, and to do all in their power to secure the transit of the pilgrims in satisfactory ships supplied with proper accommodation in accordance with the regulations laid down by the Government. They are prepared to provide the requisite agency for the work, Muhammadans being appointed for this purpose in all cases where necessary, to establish a special pilgrimage office in the most convenient position at Bombay, and possibly also at Jeddah, and to make all detailed arrangements in connection with the issue of the necessary announcements, forms of tickets, &c. Lastly, the Firm has expressed its readiness to comply with the requirements and regulations which may be laid down from time to time by the Government of India precisely in the same manner as though they were in the service of the Government.

4. The Governor General in Council feels convinced that a scheme of the nature above described cannot fail, if successfully carried out, to be productive of much benefit to Indian pilgrims to the Hedjaz, but if success is to be ensured, it is essential that every assistance should be afforded to Messrs. Cook and Son, not only by Local Governments and Administrations, but also by District and other officers upon whom it will devolve to give effect to the detailed arrangements. His Excellency in Council accordingly trusts that Local Governments and Administrations will see that this is done, and will direct local officers to co-operate in every possible manner with the representatives of the Firm in carrying on their operations.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all Local Governments and Administrations for information and guidance, and to the Foreign and Financial Departments for the issue of any further orders required. Also, that it be published in the *Gazette of India* and in all local Gazettes for general information. Local Governments are requested to arrange for its translation and publication in all Vernacular Gazettes.

REPORT ON THE HUNSUR SILOS.

During the months of April, May and June 1884, four Silos were constructed at the Hunsur Public Cattle Depôt of the following dimensions :—

No. 1.—Hunsur North Silo ; length 32 feet, breadth 12 feet, depth 8 feet, cubical contents 3,072 feet.

No. 2.—Hunsur South Silo ; length 32 feet, breadth 12 feet, depth 10 feet, cubical contents 3,840 feet.

No. 3.—Kodigahalli North Silo ; (dimensions the same as No. 1).

No. 4.—Kodigahalli, South Silo ; (dimensions the same as No. 1).

The sides and bottom were levelled, and a cement, made of 2 parts finely sifted sand and 1 part chunam, was spread on to the thickness of about an inch.

Silo No. 1 was filled on 1st and 2nd November 1884 with 14½ acres khardu grass and 1 acre of cholum; the grass was a very poor crop and was cut while in flower.

An elephant was used to trample down the grass as it was put into the silo and after filling it up level with the ground a layer of dry grass about 4 inches thick was put on the top, and the whole again firmly trampled down.

Next came a layer of Honge (karanj) branches cut and placed so as not to interfere with the sinking of the grass, and on the top of these was placed about 34¾ tons of stone, or a little over 200 lbs. to the square foot ; then the silo was covered with about a foot of dry earth which was well rammed into the holes between the stones.

An iron gas pipe was forced down to the bottom at the centre of the silo, and the temperature taken daily ; it gradually rose until the 19th November, when it reached its highest point, *viz.* 113°, and after the 19th November it gradually decreased.

Silo No. 2 was filled on 2nd, 3rd and 4th November 1884 with khârdu grass, but layers of marwadi, sunti, hanchi and hariyali grasses were also put in for experiment ; this silo was trampled by the elephant and weighted in the same manner as Silo No. 1.

Silo No. 3 was filled in the same manner, but was weighted with earth only.

Silo No. 4 was filled gradually, a layer of green grass was put in every other day and it took about ten days to fill it ; this silo was weighted with earth only and was not trodden down by th elephant.

All the silos were roofed in with a rough thatch to protect them from rain.

The grass was cut in fine weather, but that cut and put into the silos in the early mornir was soaking wet with dew.

Silo No. 1 was opened on 30th March 1885, and the grass was found to have sunk about 3 feet, leaving 1,920 cubic feet of solid fodder ; the whole of the contents were perfect with the exception of about 3 inches round the sides, which was mouldy.

As an experiment the ensilage was offered to cows, bullocks and horse greedily.

This ensilage was issued to the working and other bullocks at Hunsur from the 30th March to 25th May 1885 at the rate of 30 lbs. per head, they ate it readily and up to the present time they are in excellent condition; in fact the working bullocks are in better condition than they have been at any time during the last 2 years; this improvement is clearly attributable to their being fed on ensilage, as they have had no grazing for the last 2 months.

Silo No. 4 at Kodigahalli was opened on 20th April 1885 and was found to be perfectly good, with the exception of about 10 inches at the top, which was mouldy, the weight per cubic foot was only 23 lbs or a total of 19 tons, 14 cwts and 32 lbs, being 14 tons, 9 cwts and 48 lbs less than the contents of silo No. 1, which is of the same size and weighed 40 lbs per cubic foot; (this clearly shows the benefit of employing an elephant in treading down the grass); this ensilage was issued to the Home herd during the month of May 1885.

Silo No. 2 was opened on 26th May 1885 and was found to be equally good, if not better than the others; it weighed 40 lbs per cubic foot and had sunk down 3½ feet, leaving 2,496 cubic feet of solid fodder; this is at present being issued to the working and other bullocks at Hunsur.

Silo No. 3 at Kodigahalli has not yet been opened, but is reserved for the young steers which will be taken over from the Amrut Mahal Department this year; the contents of this silo may be estimated to weigh about the same as Silo No. 1.

Although the ensilage was found to weigh about 40 lbs per cubic foot on being opened, it was proved by experiment that a great loss of weight took place by drianage, and credit was given for the ensilage in the stock return for Silo No. 1 at an average rate of 30 lbs per cubic foot; No. 3— 30 lbs per cubic foot; and No. 4— 20 lbs per cubic foot, a statement of the result of the experiment made is appended.

The work of excavating and roofing the silos was done by the cattle attendants, and the only expenditure entailed was the sum of Rs. 185—6—0 paid to coolies for cutting the grass.

A statement showing the cost per ton is also appended.

The result of these experiments is in most respects highly satisfactory.

If the fodder is compared with the hay made of grass from the same paddocks, the superiority of the ensilage is unquestionable; cattle which refused the hay ate the ensilage with avidity and in many cases preferred it to paddy straw when both were placed within their reach.

In my opinion the object to be attained is to produce sweet ensilage on the system of Mr. Fry, whose experiments during the past 2 years have shown that it is by permitting the temperature to rise to or over 120° F., that fermentation is arrested and this is attained by gradual filling of the silo. Complete exclusion of air is necessary to preserve the fodder, but is not the primary cause of averting fermentation.

When Silo No. 1 was opened, the ensilage was entirely devoid of any bad smell, but when cut out in blocks it soon became offensive, and after the silo had been opened a few days a very powerful odour was emitted. When the ensilage was spread out immediately and dried as hay, no bad smell was perceptible.

The loss by evaporation as stated in the return appended shows that 45 lbs of fresh ensilage contains about 31 lbs of water. Complete evaporation seems to have been effected in about a couple of days, after which, the weight was reduced to 14 lbs per cubic foot.

The expenditure was entirely for cutting the grass by coolies which will be reduced when the mowing machine indented for next year is received.

It is proposed to repeat and extend these experiments during the present year, when an endeavour will also be made to test the feeding capabilities of ensilage as compared with hay and straw by weighing equal numbers of cattle fed upon each description of fodder.

I may mention that the preparation and filling of the silos was very carefully carried out by Sub-Conductor Dough

Report on the Silos excavated and filled on the Farm, Ramban land, Herur and Nadenavinpur Kavals **and the results when opened.**

Silo No. 2—Was excavated and got ready by the 24th October, the filling was commenced on the 25th, early in the morning, three feet of good hariyali mown off Paddock No. 4 was put in for the first layer and was well trampled down by women. After this the sorghum grown in Paddock No. 3, an area of 4 acres, was cut and chaffed in the chaff cutter and put in, being gradually trampled by women. The filling work was done on the 25th, 26th and 27th, the last layer being good hariyali; the closing of the silo was done on the 28th, and as the mass sank it was attended to; the earth excavated from it went for the weighting of the mass. The dimensions are 14 feet × 11 feet × 10 feet and the contents are 1,540 cubic feet. On the morning of the 19th of March, the silo was opened, the earth covering on surface being removed, the mass had sunk two feet, equivalent to 308 cubic feet (14' × 11' × 2'). On removing the bamboo mat laid over the silage before weighting with earth, it was found that the first layer of hariyali grass was of a dark green color and after airing out some of it, it was found to be like fresh made hay. The sorghum was found to be also fresh and green; containing a good deal of sap both were given to the mares and foals: the hariyali was eaten with avidity by them, but they refused the sorghum on account of the moisture and had it since. The cattle were next tried and every one to which it was offered ate it. The quantity of sorghum and hariyali in this silo was weighed; of the former there was 16,168 lbs and the latter 5,730 lbs, a total of 21,898 lbs. Four days after opening it, it was found to contain minute worms, which had been deposited by flies through the bad smell, and since the 23rd March it is being used for the cattle. The cost of excavating this silo was Rs. 5—4—0 as the bottom contained soft rock, and the cost of cutting, chaffing trampling and weighting was Rs. 11—8—0, total Rs. 16—12—0.

Silo No. 3—Excavated on the Rambanhanta land, opposite the village of Maisanhalli on the 2nd November; the filling commenced early on the morning of the 5th when the dew was still on the grass fresh. The filling was done on the 5th, 6th and 7th with the best kaval grass to be had, and on the 8th the mass was weighted with earth excavated from the silo. The dimensions of this silo are

14′ × 10′ × 8′ and the contents being 1,120 cubic feet. On the 23rd March it was opened and the sinkage was 1¼ feet or 175 cubic feet. On cutting out a square piece in the middle, it was found to be of a black color and had a very sour smell. After cutting to a depth of 2½ feet, it was ascertained that 1½ feet of silage had the same black color as on the surface; below this depth the grass was found to be fresh and of a better smell. A cubic foot of this fodder was cut out and weighed 15 lbs. Deducting the sinkage there remains 945 cubic feet, containing 14,175 lbs. The grass could not be weighed before being put in; a portion of the black surface grass was given to the cattle and they seem to like it. After ascertaining the results of this silo, it was again shut up. The cost of excavating, filling, cutting grass, weighting, &c. was Rs. 11—12—1.

Silo No. 4.—Was excavated on the 5th November near Silo No. 3; the filling commenced on the 8th and was finished on the 10th; the weighting of the mass was done on the 11th morning. This silo was also filled in with good kaval grass. The mass was weighted with the earth excavated from the silo. The dimensions of silo are 14′ × 10′ × 8′ and the cubical contents being 1,120 feet. This silo was not opened. The cost of excavating, filling, cutting grass, weighting, &c. was Rs. 11—12—1.

Silo No. 5.—Was excavated near the village of Borlingapalyam on the 13th November; the filling was commenced on the 14th and was finished on the 19th and weighted on the 20th and 21st with the earth excavated from the silo. The dimensions are 14′ × 10′ × 8′, total cubic contents being 1,120. This silo was not opened. The cost for excavating, filling, weighting, &c. is Rs. 11—12—1.

Silos Nos. 6 *and* 7.—Were excavated on the high ground near the village of Kotepura on the side of the high road on the 17th, 18th and 19th November; the filling of the former was commenced on the 26th November and was completed on the 29th. This silo was larger than the rest, the mass was weighted on the 30th with the earth excavated from it. The dimensions are 22 × 14 × 11. The latter was commenced with on the 1st December morning and finished on the 7th. The weighting was done on the 8th, dimensions 16 × 11 × 10. The cubical contents of the former are 3,388 cubic feet. It was opened on the 20th March. The sinkage was found to be one foot from the surface or 308 cubic feet. A block was cut out and the results were indeed very satisfactory; the grass was found to be of a dark color but equal to freshly cut grass; the horse your honor rode ate it all the time it was there with avidity and so did many others to which it was given. Thence Amrut Mahal bulls being sent into Calcutta were given some of it and they also readily ate it. A cubic foot was cut out and weighed 27½ lbs, the pressure was indeed immense. Deducting the sinkage 308 feet, there remains 3,080 cubic feet of solid fodder equivalent in lbs 84,700; after ascertaining these results the silo was again covered up and ordered to be kept till such time a difficulty was experienced for fodder for the horses. Silo No. 7 was not opened, the dimensions of it are 16′ × 11′ × 10′ and its cubical contents 1,760 feet; the cost for excavating, filling, pressing and weighting these two silos is Rs. 22—3—6; also a stack of surplus grass was cut and stacked near these silos which served for the use of the farm cattle since the 14th February to 13th March.

Silos Nos. 1 *and* 2.—Amrut Mahal Nademavinpur. The dimensions of the former are 21 feet × 12 feet × 6 feet containing 1,512 cubic feet, and the latter 30′ × 12′ × 6′, the cubical contents being 2,160 feet. These silos are situated near the 48th mile stone on the road to Hassan. The former was excavated on the 10th and 11th December and the kaval which contained some very good grasses, as marvil, &c., were cut and put in on the 12th, 13th, 14th and 15th December, and the weighting was done on the 16th and 17th. The latter was excavated on the 17th and 18th December on contract, and the filling was done on the 19th, 20th and 21st; the weighting was done on the 22nd. On the 24th March Silo No. 1 was opened, and the sinkage was found to be two feet, the contents of which are 504 cubic feet. The top layer was found to be decomposed partly, having a white color, resembling fungi to a depth of 4 inches. After removing this, the grass was as good as when newly cut, having a dark green color; a block was cut out to see whether the Amrut Mahal cattle which were at that time present would eat it; on my recommending that the top layer should be first given them as a trial to see whether they would eat it, as it was very bad, some was laid before them, when to the satisfaction of many ryots and gaudas who were present, the cattle ate it greedily; after this the good silage was tried, with the same satisfactory results, the cattle were so enticed with the vicious smell which came from the silage that they approached near to the silo for some more. A cubic foot was cut out and it weighed 21 lbs Deducting the sinkage 504 cubic feet from the total contents of 1,512 cubic feet leaves 1,008 cubic feet of solid fodder containing 21,168 lbs. The latter was not opened. The cost of the former silo for excavating, filling, &c., was Rs. 16—13—8 and the latter Rs. 23—9—2.

In conclusion, I beg to report that the results obtained from the silo experiments tried this year have indeed been very satisfactory, and the problem has now been solved, that all surplus grasses of any kind can be safely preserved under ground. If cattle owners took an interest in the welfare of their cattle, they will during a time of plenty store large quantities, which would during seasons of drought be a blessing to their impoverished cattle when no fodder is to be had at all.

SUMMARY OF THE WEATHER REPORTS FOR DECEMBER 1885 AND JANUARY AND FEBRUARY 1886.

The fine weather which had prevailed in the last week of November continued during the first week of December throughout the whole country and for the first ten days in Northern India. In Madras light showers set in on the 7th, and the rain-fall extended and became heavier on the two following days. From the 10th to the 15th there was but little rain in the Peninsula though some fell in Central India, but for about ten days subsequently to the 25th, there was fairly general, and in places heavy, rain in Madras.

In Upper India the weather became unsettled about the middle of the month, and the winter rains began unusually early. Moderate showers fell in the Eastern Punjab and the Gangetic Valley, and falls of snow at the hill stations of the North-Western Himalaya, on the 12th and the 13th, and heavy showers both in North-Western India and the Nerbudda Valley on the 18th and 19th. After the passage of the depression which caused the last mentioned rain-fall, pressure rose quickly and the weather became fine throughout the whole country. In Guzerat, Sind and the Konkan the rain-fall of the month was either nil or unimportant, but in all other parts of the country the amount exceeded the average, especially so in North-Western and Central India. This unsettled weather brought about very low temperatures at times, and the mean temperature of the month was generally 2° or 3° below the average.

In January the weather of Upper India was even more unsettled than in December, and several disturbances appeared over the Punjab. That of the 19th was exceptionally intense, and on that day pressure in the Punjab was from 0·25 inches to 0·37 inches below the average of the month. More than double the average amount of rain fell in the Punjab, and a considerable excess in the Trans-Gangetic districts of the North-Western Provinces, but it did not apparently extend beyond those regions, deficiencies being reported from almost all other parts of India. Western India from Guzerat to the Deccan was rainless throughout. Like December, January was a cool month, the only exceptions being Madras and the more southern districts of the Bombay Presidency, where there was a slight excess of temperature. In the Punjab it was from 2° to 4° below the average.

February was, on the whole, a more settled month than either December or January, and the barometric mean of the month was almost everywhere above the average. A barometric disturbance affected North-Western India on the 16th, but though the pressure differences were considerable and the winds very high at some stations, there was but little rain, and the total fall of the month in this, as well as in nearly all other parts of India, was below the average. Over the greater part of India there was no rain, but in the Carnatic and British Burma there was a slight excess, and in Assam and Cachar half the average fall. In the absence of rain, temperature rose above the normal at most of the Peninsula stations and in Guzerat, but elsewhere the cool weather, which had characterized the two preceding months, continued, and in places, relatively to the average, the depression of temperature was even more marked. At Dera Ismail Khan it was as much as 5°. Dry north-westerly winds prevailed throughout a great part of the month, and except in the extreme north-west, humidity was considerably below the average throughout India.

The final column of the following table shows that, except in Bengal and Assam and in Western India, the rain-fall of the three months hasbeen above the average. Except in the Punjab, the North-Western Provinces and the Carnatic, the whole of this excess is attributable to the exceptional rain-fall of December.

The following table shows the amount of rain and the difference from the average during the months of December 1885 and January and February 1886, according to districts as far as is indicated by the telegraphic reports :—

NOTIFICATION.

SEPARATE REVENUE.

Assessed Taxes.

No. 593.

Calcutta, the 5th February 1886.

In exercise of the powers conferred upon him by Act II of 1886, and of all other powers enabling him in this behalf, the Honorable the President in Council is pleased to make the following rules under the said Act ;—

1. The time within which amounts deducted from salary, annuity, pension, or gratuity paid by a local authority under section 8, sub-section (1), of the Act must be paid to the credit of the Government of India is fixed at one week from the date of payment of the salary, pension, annuity or gratuity. The payment to the credit of the Government shall be made by remitting the amount to the Collector with a statement giving the following particulars for each person from whom the tax has been realised:--

(1). Name.
(2). Period for which the salary has been paid.
(3). Amount of salary paid.
(4). Amount of tax.

2. The return required by section 10 of the Act shall be in Form A hereto appended.

3. Any sums, such as payments to regimental mess or band funds or the like, compulsorily stopped from salary by the orders, or with the approval, of Government, shall be deducted from the salary previous to assessment.

A portion of salary withheld in pursuance of an order of a Court is not a sum compulsorily stopped from salary within the meaning of this rule.

4. A deduction made from the amount of salary, pension, or annuity liable to assessment on account of a payment made to a life insurance company must be supported by the receipt of the insurance company for the payment and a copy thereof. When the deduction is claimed by a servant of the Government, or of a local authority, the officer paying the salary, pension, or annuity will compare the original receipt with the copy, return the original, and attach the copy to the salary, pension or annuity bill if the payee is a Government servant, and to the statement forwarded with the amount of the tax realised under Rule 1, if the payee is a servant of a local authority.

Where the Collector is satisfied that the original receipt of the insurance company cannot be produced without an amount of delay, expense, or inconvenience which, under the circumstances of the case would be unreasonable, he may accept such other proof of the payment of the premium as he may deem sufficient.

5. The amounts exempted from assessment by section 5, sub-section (1), clause (*g*) of the Act and by rule 4 above shall not be deducted from income for the purpose of determining whether the income is liable to the tax, or of determining the rate at which the tax shall be levied.

6. The amount to be assessed under section 24, sub-section (1), of the Act on account of a building occupied by the owner thereof shall not in any case exceed 10 per cent of the aggregate income of the owner derived from all sources. It will not, however, be understood from this that a maximum of 10 per cent of the aggregate income of the owner is to be considered equivalent to the letting-value of his house. The letting-value will, in all cases, be ascertained on the best data available, in view of the circumstances of the locality in which the house is situated.

7. Salaries, annuities and pensions paid in April 1886, though on account of March 1886, are liable to the tax.

8. After the close of the year of assessment each Accountant General or other auditing officer shall submit Return No. I in the form hereto appended to such officer as the Local Government may direct.

9. The certificates referred to in the second column of Part III of Schedule II of the Act shall be in Form B or in Form C, hereto appended.

10. Any claim under section 5, sub-section (1), clause (*c*) of the Act to exemption from the levy of the tax on the interest of securities employed solely for religious or public charitable purposes within the meaning of that clause must be supported by a certificate from the Collector, which shall be in Form D hereto appended.

11. In the case of securities, the interest on which is payable by the Government of India, the amount deducted on account of the tax under section 13, sub-section (1) of the Act shall be paid to the credit of the Government on the same day as the payment of the interest is made.

12. In the case of securities, the interest on which is not payable by the Government of India, the amount so deducted shall be paid to the credit of the Government within one week from the date on which interest is paid. The person deducting the amount should pay it to the credit of the Government by remitting the amount to the Collector with a statement showing the following particulars :—

(1) Name of owner.

(2) Description of security.

(3) Number of ,,

(4) Date of ,,

(5) Amount of ,,

(6) Period for which interest is drawn.

(7) Amount of interest.

(8) Amount of tax.

13. Interest on securities belonging to Service Funds shall not be assessed.

14. After the close of the year of assessment each Accountant General and Comptroller shall submit Return No. II in the form hereto appended to such officer as the Local Government may direct.

15. In calculating the amount of tax payable the amount due on a fraction of a rupee shall be neglected. Thus the tax to be realised on a monthly salary of Rs. 166—10—8 is Rs. 4—5—2 only.

16. All public servants are forbidden to make public or disclose, except for the purpose of the working of Act II of 1886, any information contained in documents delivered or produced with respect to assessments under Part IV of the said Act, and any public servant committing a breach of this rule shall be deemed to have committed an offence under section 166 of the Indian Penal Code.

17. Power to make further rules is hereby delegated to the several Local Governments.

18. Each Local Government will prescribe forms of registers to be maintained by Collectors and others for the purpose of showing the demand and collections of the tax, the various classes of incomes assessed, and the working of the several provisions of the Act.

19. After the close of the year of assessment each Local Government will submit to the Government of India in the Financial Department a report on the working of the Act.

20. The following returns in the forms hereto appended will be submitted with that report :—

From—The Secretary to the Government of India, Department of Finance and Commerce.

To—All Local Governments and Administrations.

I am directed to forward copies of the rules made by the Honorable the President in Co under Act II of 1886, and to communicate the following remarks and instructions.

2. The President in Council desires to impress upon the Government of you his great an that special care should be devoted to the assessment and working of the Act especially during first year of its operation. He attaches the greatest importance to the necessity of exercising ca and moderation in the introduction of the measure. The Government of You are is authorized to ente such establishments as may be required to ensure that the assessment shall be carefully and equi made. Money spent in this way will, the President in Council feels assured, give a full return preventing inequitable assessments and discontent and by securing the smooth working of the Act.

3. The temporary employment in the working of the Act of persons who do not hold perm appointments under Government should be forbidden, and all officers appointed for this purpose sh be chosen from the permanent staff. A sufficient and trustworthy staff is specially requisite i Presidency Towns, where so large a portion of the total tax will be assessed, and His Excellen Council trusts that especial care will be exercised in the selection of the officers charged wit supervision of the work in these towns. It may also be expedient to place an officer of experien special duty in the Province under the charge of the Government of your charge to supervise the work during whole or a portion of the coming year, and the President in Council authorizes the Government of you to take this step at once should it be deemed desirable to do so.

4. The President in Council desires that in making the new assessments the results of the a ments made under the License Acts should be utilized to the utmost possible extent, and that should be accepted as far as possible. Persons inadvertently omitted under the License Tax however, be brought on to the list of assessees.

5. In framing rules under the Act the Government of India has intentionally avoided de with details, as it is believed that Local Governments are in a better position to frame rules whic suit the varying circumstances of different localities, and as it is undesirable to attempt to lay general rules on minor matters, applicable to all India, until at least one year's perience o working of the Act has been obtained.

6. Power has been delegated to Local Governments to make additional rule in thi nection I am to call the special attention of the Government of to the provisions 18 o

[illegible] to Local Governme[illegible]
[illegible] attention of the Government of [illegible]
[illegible] to the provisions of section 18 of the

Each Local Government must, of course, consider the special requirements of the territories under its control, and frame such rules as may be suitable to meet those requirements, but the President in Council, with a view to the eventual removal of any unnecessary differences in the procedure in different Provinces, desires that the Government of you should forward to all other Local Governments and to the Government of India in this Department a copy of any rules which it may issue.

7. Section 3 (4) of the Act declares the exemption from assessment of travelling, tentage, horse or sumptuary allowance, or any other allowance granted to meet specific expenditure, to be subject to any rules which may be prescribed. This power to make rules was reserved in order to prevent any abuse of the exemption by changing the designation of a portion of salary or otherwise. The power need not be exercised unless it appears that attempts to abuse the exemption are being made.

8. The only condition or restriction prescribed under the power conveyed by section 5 (1) (*g*) of the Act is that contained in rule 5, providing that the exemptions from assessment of fund subscriptions and life insurance payments shall not be taken into account in deciding whether the income is liable to the tax or in determining the rate at which the tax is leviable.

9. It will be observed that salaries, annuities, and pensions paid in April 1886 are liable to the tax even if they are due in respect of preceding months. Payment in advance does not extinguish this liability.

10. The Rules prescribe no conditions under section 9 (2) of the Act regarding arrangements for the collection of the tax from their employés by non-official employers. This proviso was inserted in the Act in order that employers may be induced by the remission or return of a small portion of the tax, and in order to save their employés from avoidable trouble, to undertake the collection of the tax and thus relieve Collectors of the difficulty of dealing directly with a large number of assessees. The intention should be explained to Collectors with instructions that they should endeavour to make such arrangements whenever it may appear feasible; but it will, of course, be understood that no pressure is to be put upon employers to fall into an arrangement under this section.

11. It will be observed that the Rules contain no provision for payment by instalments of the tax leviable under Part IV of the second Schedule. I am to explain that this is left by the President in Council to the discretion of the Government of your discretion; and that it is the desire of the Government of India that every reasonable facility should be given in the matter, the maximum number of instalments, however, in no case exceeding four.

12. No rules have been prescribed regarding composition for the tax under section 31 of the Act. The Government of India trusts that the principle of composition may be extensively adopted, as it is evidently calculated to obviate friction and trouble in assessment, and the President in Council will be glad to have as early an expression as may be convenient of the opinion of the Government of your opinion whether any such rules need be made by the Government of India, or whether they should be left to the Local Government concerned, and in the former case what rules the Government of you propose propose.

13. The number of companies being few, and it being desirable to have fuller information regarding the assessment of companies than is contained in the general published return, the President in Council requests that the Government of you will forward, each year, separately from the Returns prescribed in the Rules, a return showing the designation and assessment of every company in the territories subject to the control of the Government of your control. This return should not be published.

14. I am also to invite suggestions for the improvement of the classification adopted in Return No. V. These suggestions should if possible reach the Government of India not later than the end of December next, in order that, if any change in the form of the Return is decided on, it may be prescribed in time for adoption in the Reports of 1886-87. The experience gained in making the assessments under the Act may enable Local Governments to propose a preferable classification.

15. The reports on the working of the Act in 1886-87 should be specially full and complete.

and delivers to the Government of Mysore a particular inventory and valuation of the property of the deceased, verified by affidavit or affirmation,

and if the Government of Mysore is satisfied that a greater fee was paid on the probate or letters than the law required,

the Government of Mysore may—

(*a*) cancel the stamp on the probate or letters, if such stamp has not been already cancelled ;

(*b*) substitute another stamp for denoting the court fee which should have been paid thereon ; and

Relief where debts due from a deceased person have been paid out of his estate.

19 B. Whenever it is proved to the satisfaction of the Government of Mysore that an executor or administrator has paid debts due from the deceased to such an amount as, being deducted out of the amount of value of the estate, reduces the same to a sum which, if it had been the whole gross amount, or value of the estate, would have occasioned a less court fee to be paid on the probate or letters of administration granted in respect of such estate, than has been actually paid thereon under this Act, the Government of Mysore may return the difference, provided the same be claimed within three years after the date of such probate or letters.

But when, by reason of any legal proceeding, the debts due from the deceased have not been ascertained and paid, or his effects have not been recovered and made available, and in consequence thereof the executor or administrator is prevented from claiming the return of such difference within the said term of three years, the Government of Mysore may allow such further time for making the claim as may appear to be reasonable under the circumstances.

19 C. Whenever such a grant of probate or letters of administration has been or is made in respect of the whole of the property belonging to an estate, and the full

fee chargeable under this Act has been or is paid thereon, no fee shall be chargeable under the same Act when a like grant is made in respect of the whole or any part of the same property belonging to the same estate;

Probates declared valid as to trust-property, though not covered by Court-fee.

Provision for case where too low a Court-fee has been paid on probates, &c.

19 E. Where any person, on applying for probate or letters of administration, has estimated the estate of the deceased to be of less value than the same has afterwards proved to be, and has in consequence paid too low a court fee thereon, the Government of Mysore may, on the value of the estate of the deceased being verified by affidavit or affirmation, cause the probate or letters of administration to be duly stamped on payment of the full court-fee, which ought to have been originally paid thereon in respect of such value and of the further penalty, if the probate or letters is or are produced within one year from the date of the grant, of five times, or if it or they is or are produced after one year from such date, of twenty times, such proper court-fee, without any deduction of the court-fee originally paid on such probate or letters:

Administrator to give proper security before letters stamped under Section 19 E.

19 F. In case of letters of administration on which too low a court-fee has been paid at first, the Government of Mysore shall not cause the same to be duly stamped in manner aforesaid, until the administrator has given such security to the Court by which the letters of administration have been granted as ought by law to have been given on the granting thereof, in case the full value of the estate of the deceased had been then ascertained.

Executors, &c., not paying full court-fee on probates, &c., within six months after discovery of under-payment.

19 G. Where too low a court-fee has been paid on any probate or letters of administration in consequence of any mistake, or of its not being known at the time that some particular part of the estate belonged to the deceased, if any executor or administrator acting under such probate or letters does not, within six months after the first day of 1886, or after the discovery of the mistake, or of any effects not known at the time to have belonged to the deceased, apply to the Government of Mysore and pay what is wanting to make up the court-fee which ought to have been paid at first on such probate or letters, he shall forfeit the sum of one thousand rupees, and also a further sum at the rate of ten rupees per cent on the amount of the sum wanting to make up the proper court-fee.

But when, by reason of any legal proceeding, the debts due from the deceased have not been ascertained and paid, or his effects have not been recovered and made available, and in consequence thereof the executor or administrator is prevented from claiming the return of such difference within the said term of three years, the Government of Mysore may allow such further time for making the claim as may appear to be reasonable under the circumstances.

19 G.
